We have been pumping it out once a day with the vac truck I do believe we have a plug line that has caused me not to have a day off since February 1st. I put a clean out on the villas sewer main and tried to jet the line ourselves we just did not have enough pressure to get through. H&H came out and could not get their Jetter around the 90-degree corner.

In the month of January and February we have had an increase in calls of service. A few cars stopped. Nuisance violation. Dangerous building letter sent out. I have made a mistake and did not

redact some information but going forward I will ensure that private information will be redacted. Monday we will finish our firearms training and will qualify.
